Solar Shirts

The Vapor Solar shirts are unique as they offer UPF 50+ solar protection. The protection actually increases with washing, after 25 washes 99,92 % of UV-B transfer are blocked! This means that your customer can be stylish with a personalized, high quality shirt and at the same time be protected from UV radiation. Ideal for the summertime! You can choose from a broad variety of colors, types and sizes.

Laser Transfer

Transfer

If you are looking for an alternative to Sublimation, you may choose the method of Laser Transfer. An advantage of this technique is that you can print on light and dark textiles, but also on hard substrates like wood, metal, glass and ceramics.

This technique gives you many color options, you can print standard, neon, metallic and multi-colored images. The colors will turn out bright and beautiful. We offer the complete package for Laser Transfer: Printers, Heat Presses, Transfer Paper and Software.

TURBO wrapper

If you are into saving time and money, choose the TURBO wrapper for your mug production. This revolutionary device wraps mugs more easily, efficient and faster than any other device. It is designed for your convenience. It works perfectly with our 10 oz. and 11 oz. mugs straight away, therefore we recommend this combination to you.

Features:

- Increased productivity
- Consistent alignment
- Requires minimal training
- Low operator fatigue
- Clamp forms steady base for processing
- Convenient separation of clamp and wrap
- Dutch design, built-in-house
- Patented system
